

## GRADE 6 SOCIAL SCIENCE: GEOGRAPHY – GROUP TASK

### TOURIST ATTRACTIONS OF AFRICA

You have a list of 16 tourist attractions from various African countries. You will need to research these places to find out in which country each is situated and also a short 'history' of each place on the list. Locate them on your small map first and then place them on your large map, using some form of appropriate illustration to indicate their position. Place the information on each attraction in small blocks which will be used to form the border around your completed map. Look at the example at the bottom of this page.
